ENVIRONMENTAL POLICY COMMITMENT TO THE ENVIRONMENT

The Company's policy is to employ the best practicable means of minimising impacts on the Environment whilst carrying out its activities.

The company demonstrates its continuing commitment to the Environment by establishing best practice environmental procedures and guidelines for managing its work activities. These include:

- an environmental management system which is certified to ISO 14001
- the establishment of management programmes with objectives and targets for :
 - waste minimisation
 - recycling of materials
 - emissions from plant
 - managing 'non-renewable resources'
- conservation, habitat protection and biodiversity through promotion of design solutions and construction methods which protect wildlife and lead to environmental enhancement
- sustainability through the use of non-disruptive construction methods and planning of site activities for transport and use of local resources (people, plant and materials)
- dissemination and sharing knowledge through environmental organisations

The company encourages all employees to contribute to environmental best practice where practicable. It will endeavour to influence other organisations it works with (Clients, Contractors and Suppliers) to adopt similar practices.
