

Minor Works Framework

| | | | |
|------------------------|---------------------------|------------------|-----------|
| Contract Value | £25k per scheme (approx.) | Commenced | Sept 2008 |
| Contract Period | 12 months | Completed | Ongoing |

Brief Description

Byzak have recently been awarded a Minor Works Framework for the Environment Agency covering a range of works in the North East.

The works will be undertaken under the New Engineering and Construction 3 (NEC3) suite of contracts.

Schemes covered under the framework include minor civil engineering, construction and maintenance/repair works. These works will be within river, estuary and coastal environments.

Listed below are some schemes we are currently working on within the Framework:
